Re: EMS Electric of Monroe, LLC

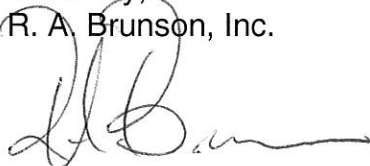

To Whom It May Concern:

EMS Electric of Monroe, LLC (EMS) has an excellent reputation in the marketplace as well as among peers. They have strong relationships with their clients and their continued dedication to provide quality, professional and dependable work has shown to be part of the daily routine and performance for EMS and its employees.

EMS has the ability to bond projects in the mid seven figure range. They are bonded by The Hartford, which is ranked one of the top ten Surety Companies in the United States.

I enthusiastically recommend EMS for your prime electrical or subcontract projects.

Sincerely,  
R. A. Brunson, Inc.

Randolph A. Brunson  
President
